BEHIND THE SCENES OF SWAMI SARVANAND'S MELO IN HARIDWAR

**112th JANAM UTSAV OF SATGURU
SWAMI SARVANAND JI MAHARAJ**

**Swamiji arrived in Haridwar on the 1st of October.
One could observe shevadaris in Jaipur doing seva such
as cleaning rooms, washing utensils, sewing "cholos"
(clothes) for the "murtis"(idols), etc.**

There's a lot of work to do but as a result of Swami Teconram's blessings, premis have the strength to carry on. While doing seva, everyone longs for Swamiji's darshan which is always a sight that uplifts one's spirits.

As each day passes, one can witness the influx of Premis arriving for the auspicious mela. For those of us that have come in from abroad, we are overwhelmed by warmth and hospitality of the shevadaris of India. They have showered us with so much love and have let us partake in Sheva like one big happy family.

Satguru Maharaj is always present tending to the preparations for the mela. He wholeheartedly performs his duty of administering to the needs of the Sangat and makes it a point to check if Shewa is being done correctly. He is always visible as he makes rounds in order to ensure that everything is in order.

It's admirable as to how efficiently Swamiji always keeps track of everything. A clear example can be illustrated by an event that took place a few days ago.

There was an issue with some pipes in the darbar they seem to be clogged. Instead of telling a Premi to overlook the problem, Gurudev himself stood with the plumber until the matter was resolved.

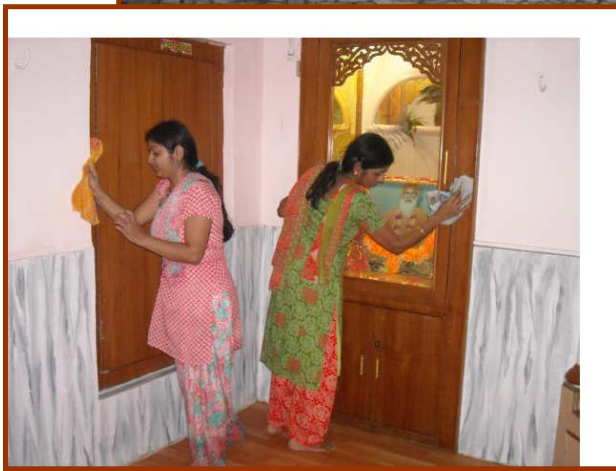

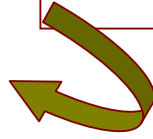

Arrangements have been made for more than 3000 people. One can just try to quantify the load of work that needs to be done but everyone present is going about doing their work with absolutely no tension and worry as they understand that Swami Teonram is here and he will ensure everything is fine.

Here are some pictures for your viewing. Many of us aren't able to experience and witness the Haridwar mela but because of Swami Teonram's blessings, we have been able to give you a glimpse of this auspicious mela.
